Who are we now?

JOANNE MURRELL

VON HUTCHESON

STEPHEN NICOL

LIAM MCMANUS

Rebuilding Advisers

- On site they source and schedule trades using personal networks and a register of trusted trades from other clients
- In the planning space they act as intermediaries between councils and owner-builders
- Support clients as they knock their heads against the NSW Planning Portal and advocate when DA approvals are not forthcoming
- Connect clients with building designers and engineers, and chaperone clients through the design process to ensure that they are supported and that their ideas and concerns are heard
- Provide technical rebuilding advice, ranging from planning support right through to standing frames and hanging doors

Rebuilding advisory service across three LGAs:
Eurobodalla, Bega Valley & Snowy Valleys

How did our Rebuilding Advisors help?

*Cecile, Owner Builder
Quaama, South Coast NSW*

Here is another celebrated outcome...

Davi, Government Rebuild, Batlow, Snowy Valleys NSW

Rebuilding Advisors + Recovery Coordinators... What else did we do?

- In collaboration with the Recovery Coordinators, we supported around 90+ clients
- The team also assisted 31 Minderoo Pod recipients
- Through a forward-thinking program design, we assisted clients with brokerage of \$115,000 in total

What struggles have you encountered?

Recovery Coordinators

Or

BYO chair, cup, hat & water bottle

Effectiveness, budget, ease of installation and operation for different sites under critical conditions, are the criteria we can use to work out which one is best for each of us.

We have a few community members who want to share their DIY solutions with you. One of them used his system to save his house in 2019/20 bushfires.

The workshop will be held in Verona to look at several installations on one property. Others will share their approaches.

There will be plenty of time for Q&A and networking. Morning tea will be provided.
