Disaster Resilience

Resilient Australia Awards

SUBMIT OR NOMINATE A PROJECT

The Resilient Australia Awards celebrates, shares, and promotes initiatives that build and foster community resilience to disasters and emergencies.

We work collaboratively with states and territories, to identify initiatives that strengthen disaster resilience and showcase innovation across the award categories.

Winning submissions in each state and territory are considered for national awards.

Award winners and finalists are promoted through AIDR service areas such as the *Australian Journal of Emergency Management* and the Australian Disaster Resilience Knowledge Hub, to share knowledge, innovation, and capability building.

Submissions for the 2022 Resilient Australia Awards will open in March 2022.

To find out more about the Resilient Australia Awards, including submission criteria and tips, visit the AIDR website.
